# REGIONAL AND STATE UNEMPLOYMENT (SEASONALLY ADJUSTED)

Regional and state unemployment rates were generally little changed in January. Overall, 26 states and the District of Columbia recorded over-the-month unemployment rate decreases, 18 states registered increases, and 6 states had no change, the Bureau of Labor Statistics of the U.S. Department of Labor reported today. Over the year, jobless rates were down in 36 states, up in 10 states and the District of Columbia, and unchanged in 4 states. The national unemployment rate was essentially unchanged in January at 4.6 percent.

Hawaii again recorded the lowest unemployment rate, 2.2 percent, in January. The states posting the next lowest rates were Utah and Wyoming at 2.6 percent each, Montana at 2.7 percent, and Virginia at 2.8 percent. Michigan reported the highest unemployment rate, 6.9 percent, followed by Alaska and South Carolina at 6.4 percent each and Mississippi at 6.2 percent. The District of Columbia recorded an unemployment rate of 6.1 percent.

In January, the South registered the lowest unemployment rate among the four regions, 4.2 percent, followed by the Northeast and West at 4.5 percent each. The Midwest continued to report the highest jobless rate, 5.0 percent. No region recorded a statistically significant unemployment rate change from December. In contrast, three of the four regions posted significant unemployment rate changes from a year earlier: the South (-0.4 percentage point), West (-0.3 point), and Northeast (-0.2 point).

### LOCAL EMPLOYMENT DYNAMICS

Local Employment Dynamics (LED), a partnership between the Indiana Department of Workforce Development and the U.S. Census Bureau, provides innovative demographic employment information (Quarterly Workforce Indicators) for local decision makers, economic development agencies, education and training institutions, and transportation agencies. The Quarterly Workforce Indicators (QWI) measure the performance of the local economy. Turnover, separations, new hires, and average new hire earnings by county, metropolitan area, and Workforce Investment area are among the data items on the web site. The web address is: <a href="http://lehd.dsd.census.gov/led/">http://lehd.dsd.census.gov/led/</a>. Select QWI Online under Quick Links.

### **Bureau of Labor Statistics Reports...**

Fed up with rising labor costs, a new generation of entrepreneurs is launching millions of tiny companies differing from business in the past: They don't want employees. The trend, building since the late 1990s, hit a milestone this year when the number of these microbusinesses reached 20 million — one for every six private-sector workers, a new analysis of government data shows. In place of paid employees, owners harness new technologies to outsource work, often linking up with other like-minded entrepreneurs to get jobs done in a virtual assembly line spanning the globe. *USA Today*, "Microbusinesses find huge benefits in outsourcing," <a href="http://www.usatoday.com/money/smallbusiness/2006-12-10-micros-usat.x.htm">http://www.usatoday.com/money/smallbusiness/2006-12-10-micros-usat.x.htm</a>.

assistants are women. In the engineering and computer world, however, women hold fewer than half the jobs. Median weekly pay for women who worked full time last year was

The New Commission on the Skills of the American Workforce, organized by the National Center on Education and the Economy, a nonprofit organization focusing on building a world-class education and training system, recommends that the federal government create individual education and training accounts for newborns, guarantee current workers the means to attain a fundamental literacy level, and encourage regional development authorities (Daily Labor Report, page A-I). Commission members -- which include two former labor secretaries and two former secretaries of education -- warn that U.S. workers are lagging behind in the technical and creative skills needed in 21st century jobs. The United States spends the second-most money on education among developed countries, but ranks in the middle or worse in math, science, and language skills, said Charles Knapp, chairman of the 26-member panel. The commission urged restructuring of the U.S. educational system with a goal of having most students college-ready at age 16. Teacher pay would be restructured to attract more applicants from among the top third of college graduates.

\$585, or 81 percent of men's.

Carol Williams, Regional Market Analyst in Economic Growth Regions 9 and 10 is retiring this month.

The analysts serving the different regions are being realigned to provide continued coverage for each region. Economic Growth Region 4 will be covered by Deani Purvis. She has been with DWD since 2001 as a Labor Market Analyst with the Industry and Occupation Projections Unit. She has a Bachelor of Science Degree in Labor Studies from IU Kokomo.

The enclosed map provides contact information for the new realignment.
